SUMMARY

Full-stack-trained developer with hands-on experience building responsive React and JavaScript applications, paired with a fine-arts background that brings a genuine design eye to interface work. Twelve-plus years leading premium events, cross-functional teams, and high-touch client relationships in fast-paced hospitality environments, building stakeholder communication, rapid problem-solving, and ownership skills that carry directly into product and engineering teams. Seeking a Front-End, Full-Stack, or UX/UI role either remote or based in Barcelona.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3, SQL
Frameworks & Libraries: React, JSX, Vue.js, Vite, Bootstrap, EJS
Tools & Workflow: Git/GitHub, GitHub Actions (CI/CD), Babel, VS Code, Postman, PgAdmin, CodeSandbox
Design: Responsive/mobile-first UI, visual composition & typography (fine-arts trained), interaction design

RECENT PROJECTS

Epic Mouse App Project | *React, Vite* | EpicMouse.app

- A React Vite application plus marketing, single-page, site built solo from the ground up. GitHub Actions CI workflow for automated builds iterated across 100+ commits, strengthening component-based architecture, and state-management skills
- Epic Mouse App is a writing companion initially created with ADHD brains in mind, like myself, to guide writing sessions

Gamified Personal Training Companion App | *React, Vite, Firebase* | Live Mobile Demo: apex-16df2.web.app | *In active development*

- Designing and building a mobile-first, gamified weight lifting companion that turns real workouts into bricks to build famous monuments, making every workout feel like actual progress
- Developing the full product using React (Vite) and Firebase with a responsive UI, tested on-device; roadmap targets 1,000+ weekly users, then app-store release with subscriptions

PROFESSIONAL EXPERIENCE

Event Manager / Coordinator | *Collective Retreats* **May 2025 – Apr 2026**
New York, NY — Hybrid (onsite & remote)

- Owned end-to-end budgeting, planning, and on-site execution for weddings, corporate meetings, and private events for VIP clientele, leading a cross-functional team on tight timelines

Event Planner / Concierge | *The Local NY* **Feb 2017 – Dec 2024**
Queens, NY

- Designed custom guides and tour itineraries for international guests, including non-English speakers, translating varied needs into tailored experiences and logistics across multiple stakeholders as night audit manager and front-desk lead

Assistant Creative Director | *Thaddeus LaDay Productions* **Nov 2014 – Dec 2019**
Manhattan, NY

- Directed the full production pipeline for high-fashion photoshoots and shows from casting, studio booking, and talent hiring for clients including New York Fashion Week, Audi Fashion Week, Fashion Week Houston 5, and more

Visual Artist (Self-Employed) | *Independent* **Jul 2014 – Present**
New York, NY

- Exhibited original paintings across multiple NYC shows and built and maintain a personal portfolio site (React) to showcase

Additional Experience: Development Technician, Luxe (Start-Up) (2015–2017)

EDUCATION

Full Stack Software Development | *The App Brewery* **Jan 2025 – Aug 2026**
Full Stack Web Development Program | *BloomTech (formerly Lambda School)* **2020 – 2021**
A.S., General Studies | *College of the Mainland* **2010 – 2012**
Additional training: Angela Yu Web Dev Bootcamp; A.S.A.P. Front-End Program
Languages: English (Native), Spanish (A2, currently in school to reach professional proficiency) | **Honors:** Employee of the Month, Hotel Galvez
